RE: Civil Discovery Request *In Re National Prescription Opioid Litigation;*
Cabell County Commission and City Of Huntington v. AmerisourceBergen Drug Corp. et al.,
Case Nos. 17-OP-45053-DAP and 17-OP-45054

Dear Mr. Stuart:

This letter is submitted pursuant to 28 C.F.R. § 16.21 *et seq.*, the Department of Justice ("DOJ") *Touhy* regulations, and is intended to set forth the basis for the civil discovery requests attached hereto as Appendix A and made on behalf of the City of Huntington and the Cabell County Commission ("Plaintiffs"). Consistent with 28 C.F.R. § 16.24(c) and Local Rule 37.1, we are willing to discuss the scope of this request as well as the most efficient means to move forward at your earliest convenience.

Please confirm that you accept service.

I. Summary of Information Sought and its Relevance to the Proceeding

The City of Huntington and Cabell County have brought claims against the distributors, manufacturers, and dispensers of opioids for their roles in causing the devastating opioid epidemic in their communities by facilitating or failing to prevent the diversion of opioids, despite their duties under state and federal law. The MDL Court recently opened discovery in this case.

Specifically, Plaintiffs request the documents outlined in the attached Schedule A. The requested documents are relevant to: the companies' knowledge or understanding of their legal duties with respect to diversion; their noncompliance with those duties, and the companies' knowledge or notice of deficiencies in their own programs and practices. Plaintiffs also believe that the documents

Re: Civil Discovery Request in MDL 2804 CT2
Page 2

will also provide illustrative examples on diversion that resulted from the companies' failures and the impact that this diversion has had on Plaintiffs' community. Each of these will be key issues in the upcoming litigation.

II. Disclosure is Consistent with 28 C.F.R. § 16.21 et seq. and Rule 45 of the Federal Rules of Civil Procedure.

DOJ's *Touhy* regulations provide that when deciding whether to make disclosures pursuant to a demand, Department officials and attorneys should consider: (1) Whether such disclosure is appropriate under the rules of procedure governing the case or matter in which the demand arose, and (2) Whether disclosure is appropriate under the relevant substantive law concerning privilege. 28 C.F.R. § 16.26(a).

Here, both considerations are satisfied. First, DOJ has previously granted similar requests from the parties in Case Track One ("CT1") of this litigation, therefore determining disclosure of the requested information to be appropriate under the governing rules. Next, although *Touhy* regulations prohibit disclosure in certain circumstances,¹ Plaintiffs' requests are not intended to, and would not, implicate any of these required exclusions.

The requested information is consistent with ordinary subpoena practice and does not seek disclosure of information prohibited by statute, rule, or regulation; information that is classified or that would reveal the source of an informant or confidential source; information that that would interfere with ongoing enforcement proceedings; or, information that would improperly reveal trade secrets without the owner's consent. In addition, to avoid any concern that disclosure "would reveal investigatory records compiled for law enforcement purposes, and would interfere with enforcement proceedings or disclose investigative techniques and procedures the effectiveness of which would thereby be impaired," DEA has the option to provide information as highly confidential pursuant to the protective order governing this matter, a copy of which is included as an attachment to this

¹ Subject to certain exceptions, disclosure of information is prohibited pursuant to 28 C.F.R. 16.26(b) if:

- (b)(1) Disclosure would violate a statute, such as the income tax laws, 26 U.S.C. 6103 and 7213, or a rule of procedure, such as the grand jury secrecy rule, Fed. R. Crim. P. 6(e),
- (b)(2) Disclosure would violate a specific regulation;
- (b)(3) Disclosure would reveal classified information, unless appropriately declassified by the originating agency,
- (b)(4) Disclosure would reveal a confidential source or informant, unless the investigative agency and the source or informant have no objection,
- (b)(5) Disclosure would reveal investigatory records compiled for law enforcement purposes, and would interfere with enforcement proceedings or disclose investigative techniques and procedures the effectiveness of which would thereby be impaired,
- (b)(6) Disclosure would improperly reveal trade secrets without the owner's consent.

correspondence. Plaintiffs are willing to work with DOJ, as appropriate, to adjust the scope of the request.

III. Expedited Responses

We ask that you continue to work with Plaintiffs to establish a reasonable schedule for disclosure of the requested documents. If you have any questions or concerns concerning this subpoena or require additional information, please contact directly either me or Linda Singer at (202) 386-9626 or lsinger@motleyrice.com.

INSTRUCTIONS

1. When providing your responses, please indicate the Request to which each document or answer responds in the meta data field. 2. Documents shall be produced in accordance with and as they are kept in the usual course of business.

4. Requested format for documents produced electronically in response to this Request:

Any documents produced in response to this Request should be provided as a Group 4 compression single-page "TIFF" image that reflects how the source document would have appeared if printed out to a printer attached to a computer viewing the file. Extracted text will be included in the manner provided herein. To the extent that extracted text does not exist, these images will be processed through Optical Character Recognition ("OCR") so that they are fully searchable. Extracted text and OCR should be provided in separate document level text files. "Load files" shall be produced to accompany the images and shall facilitate the use of the litigation support database systems to review the produced images. Document Unitization. Each page of a document shall be electronically converted into an image as described above. If a document is more than one page, the unitization of

the document and any attachments and/or affixed notes shall be maintained as it existed in the original when creating the image file and appropriately designated in the load files. The corresponding parent/attachment relationships, to the extent possible, shall be provided in the load files furnished with each production.

b. Bates Numbering. Each page of a produced document shall have a legible, unique page identifier ("Bates Number") electronically branded onto the image at a location that does not obliterate, conceal, or interfere with any information from the source document. In order to ensure that the Bates Numbers do not obscure portions of the documents, the images may be proportionally reduced to create a larger margin in which the Bates Number may be branded. There shall be no other legend or stamp placed on the document image, except those sections of a document that are redacted to eliminate material protected from disclosure by the attorney-client or work product privileges shall have the legend "REDACTED" placed in the location where the redaction(s) occurred or shall otherwise note the location and/or location of the information for which such protections are claimed.

c. File Naming Conventions. Each document image file shall be named with the unique Bates Number of the page of the document in the case of single-page TIFFs, followed by the extension "TIF." Each document shall be named with a unique document identifier. Attachments shall have their own unique document identifiers.

d. Production Media. The documents should be produced on CD-ROM, DVD, or external hard drive (with standard Windows PC compatible interface), (the "Production Media"). Each piece of Production Media shall identify a production number corresponding to the production "wave" the documents on the Production Media are associated with (e.g., "V001," "V002"), as well as the volume of the material in that production wave (e.g., "-001," "-002"). For example, if the first production wave comprises document images on three hard drives, the Respondent shall label each hard drive in the following manner: "V001-001," "V001-002," "V001-003." Additional information that shall be identified on the physical Production Media shall include: (1) text referencing that it was produced in [Case Docket No.], (2) the producing party's name, (3) the production date, and (4) the Bates Number range of the materials contained on the Production Media.

e. Objective Coding/Extracted Meta Data. Respondent shall produce with each production of documents with extracted metadata for each document (the "Objective Coding") included in the load file. The data file shall include the fields and type of content set forth in the SPECIAL INSTRUCTIONS FOR ELECTRONICALLY STORED MATERIAL section. Objective Coding shall be labeled and produced on Production Media in accordance with the provisions set forth above.

f. Native format for Excel and databases. To the extent that such documents exist in Excel or another spreadsheet program, produce the document in its native format. To the extent that the document format constitutes a database created or maintained in Access or another software program, produce the document in its native format. If the

database is based upon proprietary software, produce whatever keys and instructions are necessary to review it.

5. Requested format for hard copies of documents produced in response to this Request:

- a. create electronic copies of the documents and produce them in accordance with the procedures described in Section 4 herein, provided that you retain the originals from which the electronic copies were made until the final disposition of the matter;
- b. include a loadfile with corresponding information, including the following data fields: BegDoc, EndDoc, Custodian, DocTitle, Filename, Request No.;
- c. the Custodian field in the loadfile should contain the name of the custodian or location from which the hard copy document was taken;
- d. the Request No. field should contain the number of the Requests to which the document is responsive.

6. These Requests require you to produce all described documents in your possession, custody or control without regard to the person or persons by whom or for whom the documents were prepared (e.g., your employees, distributors or dealers, competitors or others).

7. If any responsive document was, but no longer is, in your possession, custody or control, produce a description of each such document. The description shall include the following:

- a. the name of each author, sender, creator, and initiator of such document;
- b. the name of each recipient, addressee, or party for whom such document was intended;

- e. the title of the document;
- f. a detailed description of the content of the document;
- g. the reason it is no longer in your possession, custody or control; and
- h. the document's present whereabouts and custodian thereof.

8. In the event a document that is responsive to these Requests is not in your possession but you have a right to obtain the document or a copy of the document from a third party, you must obtain it (or a copy) and produce it in response to these Requests.

9. If the document is no longer in existence, in addition to providing the information indicated above, state on whose instructions the document was destroyed or otherwise disposed of, and the date and manner of the disposal.
